Monitoring Student Competency in the Clinical Environment: Paper/Pen or Electronic Methods

8:00AM-8:50AM

Susan Morison, M.Ed., RT(R)(M): This lecture will provide an overview of the increasing use of online management systems to track student progress in the clinical environment. Specified systems such as Trajecsys and E*value will be presented. Ultimately, each program must decide what works best for them - pen and paper or online management systems for data collection.

Understanding Islam and Muslim Beliefs and Practices as Related to Patient Care

9:00AM-9:50AM

Aida Mansoor, B.S., M.S., M.A., Certificate in Islamic Chaplaincy: This lecture will afford you more culturally appropriate responses to the needs of Muslim patients based on understanding of and respect for their cultural and ethnic background.

Taking the Mystery Out of Sonography, Kimberly Sorrentino, MPH

10:00AM-10:50AM

This lecture will describe basic sonographic terms and images. Various applications of sonography will be discussed. There will also be correlations between some pathologies that can be seen both on x-ray and sonographic images.

Imaging of the Wrist and Hand, Allen Berkowitz, MD

11:00AM-11:50AM

This lecture will provide an overview of how radiography relates to the hand and wrist, positions and techniques and the importance in detecting abnormalities. Special considerations visualizing the scaphoid with CT will also be discussed.
