Understanding This Chart

The chart above shows the credit distribution we've assigned to your activity.

Content outline used: Shows the discipline and implementation year of the content outline we used to assign the credit distribution for this activity. The credit distribution we've listed for the most recent content outline (if more than one appears) will remain in effect until we implement a new content outline for that discipline (every five years), or your course approval expires, whichever happens first.

Major content category level credits: Shows credits that may be used by R.T.s who are meeting their structured education requirements (while pursuing a credential using the postprimary eligibility pathway)

Subcategory level credits: Shows credits that may be used by R.T.s who are meeting their prescribed CE requirements (as part of the Continuing Qualifications Requirements process)
