## What is CQR?

ARRT's process is called Continuing Qualifications Requirements (CQR). CQR helps you identify gaps in your knowledge and skills that could cause you to fall behind today's entry-level qualifications. It then helps you refresh your knowledge, understanding, and abilities. CQR applies to:
- All R.R.A.s
- R.T.s who earned their credentials on or after Jan. 1, 2011.

R.R.A.s and R.T.s who are subject to CQR will complete these requirements every 10 years.

CQR Timing and Process

You'll have three years to complete the CQR process. ARRT will notify you through your online account when your compliance window opens.

## WHEN SHOULD I COMPLETE MY CE PRESCRIPTION?

- Because it's possible that you'll be assigned CE for CQR compliance, consider completing your SSA early in your biennium. That will allow you to coordinate your prescribed CE with your biennial CE requirements. (If you enter CE for CQR that ARRT approves, **and** the CE is eligible for your biennial CE requirements, **ARRT will apply it to your biennial CE.**)
- You should complete and report any prescribed CE at least two weeks before the end of your three-year CQR compliance period. When you've completed your CE, upload your activities to the online CQR tool, which is accessible through your online account.
